Hart & Cooley Type B Gas Vent

Safe. Durable. Easy to install. The total package.

Safety:

The *Hart & Cooley*® double-wall, air-insulated **B-Vent** system is secured by locking joints. Properly installed, the vent won't come apart through vibration, and offers protection against vent failure or fire hazard. **Type B Gas Vent** is designed for negative pressure applications and flue gas temperatures not exceeding 400°F above ambient for Category I appliances.

Durability:

By using high-quality materials and skilled workmanship, our galvanized outer pipe and aluminum inner pipe provide protection against corrosion and external damage.

Easy and Secure Installation:

Install with confidence! *Hart & Cooley's* simple two step engagement helps installers achieve installation quickly and easily. Simply engage pipe sections and secure by sliding the lock ring over security tabs. This unique system creates a strong connection without the use of screws. With our complete offering of fittings, supports, and caps, *Hart & Cooley B-Vent* is your most valuable teammate to complete any installation.

Warranty

Hart & Cooley warrants **type-B gas vent** for a period of twelve (12) months after shipment, ensuring product is free from material or workmanship defect under normal service and use for which the products were designed.

Type B Oval Gas Vent Pipe & Fittings

Oval Pipe - OP

Type B

Sizes 4" and 5" may be installed with 1" minimum clearance to combustibles.

Type BW (recessed heater)

4" oval vent (when installed in 2 x 4 stud wall with recessed heater) requires clearances as determined by use of 4OBPWS hold-down plate, 4OCP ceiling plate spacers, and 4OFS firestop spacers.

Type B 2x4

4" and 5" oval vent (when installed in 2 x 4 stud wall, not using a recessed heater) requires clearance as determined by use of 4OFS or 5OFS firestop spacers at each ceiling level.

Model Number	Size	A	B
4OP6	4"	7 1/16"	2 7/8"
4OP12	4"	7 1/16"	2 7/8"
