

124 Floor Register

Durable Steel Construction.
Precise Air Control. Built to Perform.

The 124 Floor Register is engineered for strength, safety, and reliable airflow control in both manufactured home construction and remodels. With all steel construction and a foot operated control, it delivers long lasting performance where durability matters most.

124 floor registers come in 2"x10", 4"x10" and 6"x10". All sizes come in white and golden sand.

Features and Benefits

- **All Steel Construction**
Provides long term durability and strength for high traffic floor applications.
- **Heavy Gauge, Stamped Face**
Designed to withstand repeated use without bending or warping.
- **Rolled Fins**
Adds structural strength while improving safety during installation and everyday use.
- **Multi-Angle Fin Setting**
Allows precise airflow direction for improved comfort and efficiency.
- **Foot Operated Dial Control**
Enables easy, hands free airflow adjustment—ideal for floor installations.
- **Welded Construction**
Enhances rigidity and performance over time.
- **Mounting Holes Included**
Supports manufactured and mobile home installations that require added fastening.

Ideal Applications

- Manufactured home builds
- Manufactured home remodels
- Mobile homes
- Wholesale residential distribution
